Welcome!

Fourth Grade Families, welcome to the last full month of school! Please know, the perseverance your children displayed throughout PSSA testing was truly admirable. Career Month is upon us. Students will create a virtual presentation to display all the knowledge they gained about their career. More info to come soon!

For the month of May, students will learn all about Pennsylvania's economic system. We will learn about various marketing and advertisement techniques. Students will also learn about Earth's solar system. We will learn what causes day and night and what causes the four seasons. We will also explore the eight major planets.

In mathematics, we will study metric measurement and data analysis. We will learn about grams, liters, meters, bar graphs, line plots, pictographs and how to formally collect data.

In language arts, students will begin an informative writing piece based on a research topic. They will learn how to formally take notes and categorize information from digital sources. They will also compose an imagined writing piece.

Should you have any concerns or questions at any time, please feel free to contact me via phone or e-mail.
Thank you for all you do!

Reminder for Students

- May Character Counts Theme: **Patience**
- *Reminder...* May is Career Month. I cannot wait to see what we research and create!
- Congratulations to our monthly *golden ticket winners*: Brody Lenhart and Carly Jackson
- As the weather gets warmer please remember to pack a water bottle each day so we can hydrate often.
- Students should **not** be utilizing school issued laptops at home for any reason other than to complete teacher assigned **digital homework**.

Every great dream begins with a dreamer. Always remember, you have within you the strength, the patience, and the passion to reach for the stars to change the world. - Harriet Tubman
