

Meet Miss Gimello

Hello!

I have the privilege and responsibility of being your child's fourth grade teacher. I would like to begin by telling you a bit about myself. I received my teaching degree from The College of New Jersey and I am currently pursuing my Master's Degree in Elementary Education. I was a very active and dedicated soccer player, first at Neshaminy High School where I received the Suburban One League National Conference Women's Soccer Player of the Year and at the collegiate level. I was a scholar athlete through out high school and college. I have also had the privilege of coaching at the high school level.

In this classroom..

As an Elementary Education teacher, I am passionate about helping my students become academically, socially, and emotionally confident lifelong learners. I am excited for the 2017-2018 school year! I am committed to devoting my full energy to your child. Fourth grade is a time of great educational growth for all students and our year is filled with many new challenges which I will be there for every step of the way!

Contact me:

Of course, all fourth graders need the continued support and encouragement from home. Since I always have access to a computer in the classroom, please feel free to contact me by email with any questions or concerns, it is the most convenient and direct way to reach me. Working together we will ensure a successful year for your son or daughter! At the end of each month, please keep a lookout for my monthly newsletter. You will read about all the interesting things we have been doing in our classroom and important dates to remember. I am thrilled to be a part of the amazing and dynamic Quarryville Elementary staff!
